Hi Kristin,

Letter received. Thank you!

I was hoping you could help us track down a complete version of the attached letter (missing the enclosures).

It is a very old letter (1997) and is from both DTSC and the WB to the Navy. This was the version in our Admin Record and we could not find it in Geotracker.

Would you have any other resources that would allow you to track this letter down?

Thanks for any help you can provide. Feel free to call me at (b) (6)
